

Vision & Mission

Our Vision

We see a future where Earth's embedded energy resources is efficiently farmed, effectively distributed and made affordable for the generality

Our Mission

is to solve the complexity in energy value chain through unwavering determination to deliver clean, reliable and continually affordable energy

Our philosophy for excellence, is not to be extreme, not to be perfect. Instead, to build a process of continuous improvement with relentless pursuit of vision. It is our journey, not our destination, as we share our unique mission with the world.

Our Values

Integrity:
we keep our promises.

Reliability:
we tamely effectively

Creativity
.beyond convention

Opportunities - There is a huge gap in Africa energy distribution calling for innovative and creative solutions, fortunately Africa is very rich in natural resources to meet its energy needs, however the market as not given the rightful attention it craves. This amongst other are the tasks Gasrich is set to unlock.

Community Affairs, Safety, Health, Environment and Security ("CASHERS")

Gasrich believes that good CASHERS is an integral part of any efficient activity. Therefore Gasrich shall strive to ensure the health, safety, security and environment of her employees. Activities shall be organized, planned and executed in such a manner as to avoid injuries and damages. Employees shall be encouraged to ensure that they take reasonable care of their safety and that of others who may be affected by their activities. STS shall work with Government agencies/departments, Corporate and professional bodies to ensure improvement of her CASH policies. The Company commits to work within the confines of government policies and regulations.
